### FEATURES & OPTIONS

### Vehicle Description

This 2011 Harley Davidson CVO Screaming Eagle Road Glide just came in on trade. This bike is loaded with options and has two sets of keys. Give us a call we can also help with financing. Thank you!

The Road Glide is distinguished by its distinctive dual-headlight prow of the frame-mounted fairing. This CVO version is visually set apart by its Mirror Chrome Agitator wheels, 18 inches in diameter front and rear, and new billet muffler end caps with black spears. You'll also notice the Rumble Collection foot controls, mirrors and saddlebag latch covers, all bathed in rich, deep chrome. Trim panels for the CB pod insert, Screamin' Eagle 110 intake insert, and Tour-Pak lid insert feature a new diamond-cut patter. There is so much to like here, including several luxury and convenience upgrades that will coddle and soothe on road trips of every length.

Harley reps describe CVO customers as "alpha riders," always at the front of the pack. For those who want to make a bold statement and have the bucks to afford it, this CVO Road Glide Ultra is a distinctive and stylish way to lead the parade.

The RGU is EPA-rated at 47 mpg on the highway (32 mpg city), so as much as 280 miles on a single 6.0-gallon full tank might be achievable on the open road.

There's a lot of stuff to look at on this huge machine, and all of it is of a very high quality. The RG's massive fairing presents to a rider a lustrous cockpit with a bold instrument panel that is painted to match the body panels. The Rio Red version features deep red metallic paint that a rider can admire all day long
